HRC-Partners can help to alleviate barriers and implement process improvement initiatives. We specialize in helping business owners, start-ups and job seekers achieve their goals. With our consulting services in an extremely cost effective manner, we are committed to delivering results quickly, whether it is training, compensation design, project management, or interim human resources. Allow us to help you reach your full potential!

HRC-Partners recently created a unique recruitment site for employers and candidates alike. We are proud to introduce our new service site in an effort to connect professionals who are available for full and part time work, as well as candidates who will be happy to work on interim basis, with employers who need assistance, at no additional outside operating cost.

What sets us apart from the rest is that our site is free to employers. No membership, no contract, no out of pocket cost. Our approach is to market our candidate without adding the all so familiar 'recruiter fee' which many times can dissuade employers from hiring 'the right' candidate due to the additional cost.

As employees look for a plan B, you must reevaluate your needs, wants, goals, and interests. Panic or head in the sand approach will not solve your employment woes nor will it supply that much needed paycheck. HRC-Partners offer to assist you in your job marketing process.

Candidates; you have an opportunity to create an individualized posting on our HRC-Partners website. To present your most important assets we will assist you in creating a biography which will showcase your talents, achievements, accomplishments. We will post your biography along with your specific interests and outline of your ideal position. The interested employer may contact you directly to discuss the opportunity they have available.

No need for a middle man here! Employers may visit our site and view our candidate profiles free! Once you have found a candidate who matches your open position, contact that professional at the time and means provided in the biography. The only thing we ask of our employers is to take the time to visit our site and view the many talented professional profiles. Yes it is that simple, our site is confidential and available seven days per week 24 hours per day for both parties.

In a world of uncertainty, we need to create solutions. Contact us today for a free consultation.
